Class Description:

Come learn the art of collage quilting! This technique is so much fun and once you understand the basics, you will be looking at everything in a new light! We will talk about several methods to create a one of a kind collage quilt, colors, and how to layer everything to achieve the perfect look. You can choose from the Birch Street Collage (finished size 38" X 50") or a smaller project like one of the Teeny Tiny Collage Sewing Machines or Pincushions (finished size 16" x 20"). We will get your quilt started and let you take it from there, because cutting out the elements takes the longest. As we get closer to class time, you will get detailed instructions/video on what fabrics to look for... and many of them will be in your stash! There will be enough in your kit or from the supply lists to get you a healthy start on your quilt! We should finish a house and maybe even a tree on Birch Street, or the tomato pincushion. **We will not be sewing in this class, so no need to bring your machine.**
