Class Description:

Working on these wreath blocks was one of those projects that I fell in love with more and more each time I saw another block emerge. There is something a bit mesmerizing about the combination of the points here with the wreath and the center accents. I absolutely love it and hope you will too!

We will be working on the illusion of curves and are so simple, along with a few more surprises that you will learn along the way. Tips and tricks will be shared through out the class.

Our goal in class is to finish one block.

You will receive an email on all my quick tips on how to cut the quilt out with the best use of fabrics.

Fabric Requirements:

- Fat Quarter friendly project. You will receive more requirements after sign up, when I receive my list.
