**pattern \$15, Precut kits available, pattern not included. Kits are \$30 for medium, \$35 for large.

Use this bag next to your machine, especially on retreats. I'm always using pins, clips, bobbins and scissors and then setting them beside my machine to get lost or forgotten. Now I use the Drop Zone to catch all these items. I know right where they are. Clean up can be quickly done just by closing everything inside and zipping it up. You can make the medium or the large in class. There will be prep work to be done before class unless you choose to purchase a kit. Instructions, prep work and cutting instructions will be emailed when I receive my class list.
