Class Description:

This charming quilt with all things country reminds us of days past, where you can reminisce and dream about picnics and time on the farm. There are 8 blocks. Each block is sewn to make a row. All block construction is simple using the stitch and flip method. This method is all about squares on squares and sewing corner to corner. All blocks are pieced. This is a fun quilt to learn about color placement and strategic block placement. If you are up for a challenge and a quilt that will hone in on your inner quilting guru, this is it! Come and have fun sewing for the day!
